

A Post Mortem Examination was made yesterday upon the remains of the late W. R. McCall, member of the last Legislature from Walker River, Esmeralda county. The examination was made by his attending physician, Dr. Waters, and in the presence of Mr. Chas. W. French and others, we believe. The autopsy revealed a very thoroughly diseased condition of all the vital parts examined except the heart, which seemed to be in a healthy condition. Both lungs abounded in tuberculous matter, as also did the liver, which organ was so crowded upon the stomach by the monstrous and anomalous growth of a diseased substance which seemed to have taken the place of the left lung, that the stomach was pushed far out of its place and so situated with relation to the diaphragm as to render it almost impossible for the patient to swallow anything but fluids. This is regarded by Dr. Waters as a very remarkable case, and as such will be reported by him to the Medical Journals. Mr. McCall has been sick for several months—and was far from well during the session. He has been here, stopping with Mr. Slater at the lower part of the town, for several weeks past, his disease having arrested him here while he was on his way to San Francisco. He has had the loving attentions of his wife, and his mother and brother and other friends were about him when he died. His remains will be buried today from the Presbyterian Church. The service we believe, will take place at 11 o'clock.

SERENADE AND DANCE.—A charming detachment of some seven or eight sweet singers, male and female, of the romantic and blooming age, left a surprise party given night before last in honor of one of their own happy number about to depart for school in California, and joyously winding their way, took position under the window of a fair young lady friend whom they had bidden from the farewell entertainment. Posing themselves under one of the huge shade trees in front of the dwelling in a airy cluster with Diana's horn scattering savor through the foliage above, they unoccupied, coughed for a tuning fork, and broke loose upon the surrounding atmosphere in strains of sweetness and luscious melody. The neighborhood stood frozen with grief as "Little Maid" groined through the air "Walking by Moonlight" and "Jim Crack Corn," however, let down the heart from the mouth. The people around about inwardly applauded this masterly swoop from the grave to the gay. The singers had won their prize. The music screamed and her escort joined the songsters. They all then went, attended by the rest of the "crooks" who had been festive this late and were buoyant now with a longing for more fun, to the Turner Hall, where the juiciest, warmest, most exhilarating and waltzing dance was inaugurated and kept worrying for air till the morning star began to wane.

PURSUANT TO PROMISE we herewith rise to remind the listening and expectant world that on next Tuesday night, *Deo Volente* and it don't snow, there will be given an entertainment of a light and gleesome nature by those charming and accomplished persons and happy entertainers, the Ladies, (God bless them) of the Episcopal Church in Carson. This entertainment will be devoted in part to the blessed purposes of social reunion; partly to the gentle enterprises of Teapostore; partly to a harmless, midsummer sort of love-making; partly to the interchange of the current gossip of the times; partly to the restorative sweet case; and partly to the refrigerative and general ice cream. Any man who can resist these temptations is a curmudgeon and we herewith maintain a cease and excommunicate him. Tickets 25c.

THE POOR COLORED WOMAN of whose insanity we made mention in our issue of yesterday was yesterday so far improved by the treatment administered by Dr. Allen that her only way was brought to her and she uttered it, herself being, apparently, much satisfied and restored by her rest of the night before. Her reason is still clouded, however, and it is possible that when the effect of the opiates wears off she may become nervous again. It she should become worse and the case assume the features of a permanent condition of insanity she will be sent, early in the coming week, to the Asylum at Woodbridge.

FOR TARD.—Jake Waino took a pleasant party of gentlemen over to the Glenbrook yesterday afternoon. Doctor Mookler and Alex. Ardery were of the number. The purity of its surrounding atmosphere enables the Lake to support a very considerable pressure to the square inch, hence we are inclined to think that it can stand even this accession of heavies.

THE Board of County Commissioners sitting as a Town Board, will hold a meeting to-morrow pursuant to adjournment. Corron and his two sons who were killed at Bingham, Utah, by a man named Butcher, were it is commonly believed in the neighborhood where the tragedy took place, the first assailants. If so, Butcher is a tremendous fighter. The eldest son had five pistol wounds and several cuts with a knife upon him, and the youngest was shot five times with a revolver and once with a gun charged with buckshot. Here are eleven shots fired by Butcher, every one of which took effect, and here are the knife wounds, by way of entrance. Besides doing all this, Butcher butchered the paternal Cotton. How many bullets he invested in the old man's body is not stated. If we were of the Coroner's jury we should find it difficult to arrive at any other conclusion than that Mr. Butcher went to work upon his victims with a mitrallense—unless there was a heavy preponderance of evidence in favor of his ability to transport an arsenal upon his person and shoot his guns with the precision of a Steeple Venger.
